

## 218th Lecture Series 7.30pm - 8 January 2020

### **Prof. Wendy Barclay** **The next influenza pandemic**

#### ABSTRACT

#### BIOGRAPHY

*I joined Imperial College in May 2007, moving with my research group from the University of Reading where I had previously been based since 1995. I had graduated in Natural Sciences from Cambridge University and had undertaken my PhD at the Common Cold Unit, Salisbury under joint supervision of Dr David Tyrrell and Dr Fred Brown, studying the human immune response to rhinovirus. I acquired molecular virology skills as a postdoctoral fellow first in the laboratories of Professor Jeff Almond at Reading, and then working with Dr Peter Palese at the Mount Sinai School of Medicine, New York.*
